German Gas  
 Struts & Motors

## Podiatry/Examination Chair MK2

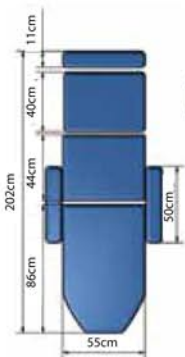

Designed and constructed using modern engineering techniques and manufactured from the finest materials to the highest standards. Features "twin lift" stability, open base design, four levelling feet and available in a choice of several vibrant colours, the Elite range combines quality and durability with style and elegance. The MK2 offers three electric actuators, controlled by a foot switch. This controls the height, back rest and tilt angle adjustment. The leg rest has a smooth gas-strut adjustment. This allows perfect positioning for both patient and practitioner. In addition all models give complete and unrestricted access for a range of patient treatments.

Standard with breathe hole and plug. Comes with four wheels, as standard. User Weight Rating: 205kg/451lb.
