

# Athlegen Bodyworker BXL - CODE - QABXL

Shown with optional face cradle, prone armrest and face hole plug

## Optional Accessories:

- Face cradles (adjustable and fixed)
- Suspended armrest
- Heavy duty transit bag
- Face hole plug

The Bodyworker BXL is one of the new generation of portable tables available from Athlegen. Designed and engineered by Athlegen, the Bodyworker is one of the strongest, quietest, lightest and most rigid table available anywhere in the world. This is due to a superior designed leg strut construction based on interlocking geometry which transfers the carrying weight better than any table design currently on the market. The full aluminium construction keeps the overall weight to a very comfortable minimum.

The amazing thing is that the Body worker is a full size table at 1860mm long and 680mm wide with a high quality plywood base, and still weighs only 12kg!

## features

- Power strut interlocking triangle design provides a super strong and quiet table frame/chassis.
- Easy open and fold without any of the fuss of locking buttons.
- Nylon washers are used between all metal parts to ensure that there is no noise from the table during treatments.
- Upholstery construction features high quality, cfc free foam rubbers.
- Centre running brace cables are well out of the way during treatments.
- High quality protective coated vinyl with oil resistant properties; durable, with a soft and comfortable feel.
- Durable powder coated rust resistant frame.
- Built to last with very low maintenance.
- Built in option to add either a fixed, or adjustable angle face cradle, armrest, and face hole plug (as pictured)
